Household Selection Procedure

Interviewer: It is your job to select a random (this means any) household. A household is a group of people who currently eat together from the same pot.

Start your walk pattern from the start point that has been randomly chosen by your Field Supervisor. Each of the four team members should be assigned a starting point within the EA. The team leader should identify random starting points so the 4 interviews done in the EA are selected from about one-half (or one-third) of all households in the EA. Refer to the sampled EA list for the expected number of households in each EA.

Starting at each assigned point, the interviewer should count houses on both the right and the left (and starting with those on the right if they are opposite each other). For small EAs (with less than 50 households), the interval should be 2, for medium sized EAs (i.e. 50 – 180 households) the interval should be 5 and for big EAs (i.e. over 180 households) the interval should be 10. If the settlement comes to an end and there are no more houses, turn at right angles to the right and keep walking, continuing to count until finding the nth dwelling, i.e. 2nd, 5th or 10th dwelling.

Interviewer: If a call is unsuccessful, use the table below to record your progress until you make a successful call. Circle a code number for unsuccessful calls only.

NOCALL	NOCALL_1	NOCALL_2	NOCALL_3	NOCALL_4	NOCALL_5	NOCALL_6	NOCALL_7
Reasons for Unsuccessful Calls	Household	Household	Household	Household	Household	Household	Household

Other [Specify]	8	8	8	8	8	8	8
Not applicable	9997	9997	9997	9997	9997	9997	9997

*If no one is at home (i.e., premises empty) after two visits, substitute with the very **next** household. If the interview is refused, use an interval of 2 (in small EAs), interval of 5 (in medium EAs) or interval of 10 (in big EAs) to select a substitute household, counting houses on both the right and the left.*

When you find a household with someone home, please introduce yourself using the following script. You must learn this introduction so that you can say it exactly as it is written below.

Good day. My name is _____. I am from Plus 94 Research and Afrobarometer, independent research organisations. I do not represent the government or any political party. We are studying the views of citizens in South Africa about how the country is governed and how the economy is managed. We would like to discuss these issues with a member of your household. Every person in the country has an equal chance of being included in this study. All information will be kept confidential. Your household has been chosen by chance. We would like to choose an adult from your household. Would you help us pick one?

Note: The person must give his or her informed consent by answering positively. If participation is refused, walk away from the household and record this in the above table on "Reasons for Unsuccessful Calls." Substitute the household using an interval of 2 (in small EAs), interval of 5 (in medium EAs) or interval of 10 (in big EAs). If consent is secured, proceed to Respondent Selection.

Respondent Selection Procedure

Interviewer: **Within** the household, the tablet will select a random (this means any) individual. This individual becomes the interview Respondent. The tablet will guide you to alternate interviews between men and women. Note that "First Interview" should ONLY be used for your very first interview on the first day of fieldwork, NOT your first interview every day.

	First interview	Male	Female
PREVINT. Previous interview was with a:	0	1	2
THISINT. This interview must be with a:		1	2

Please tell me the first names and ages of all males / females [select correct gender] who currently live in this household. I only want the names of males / females [select correct gender] who are citizens of South Africa and who are 18 years and older.

If this interview must be with a female, list only women's names. If this interview is with a male, list only men's names. List all eligible household members of this gender who are 18 years or older, even those not currently at home but who will return to the house at any time that day. Include only citizens of South Africa.

Please record the total number of adults (men and women) in the household who are citizens of South Africa. Enter a two-digit number.

ADULT_CT. Total number of adult citizens in the household		
---	--	--

Interviewer: After recording the names and ages of household members aged 18years and above of the appropriate gender, the tablet will randomly select one household member who ultimately becomes your respondent.

You then proceed as follows:

The person I need to speak to is [insert name] _____. Is this person currently at home?

If yes:	May I please interview this person now?
If no:	Will this person return here at any time today?
If no:	Thank you very much. I will select another household. Substitute with the next household to the right and repeat the respondent selection procedure. (NOTE: YOU CAN ONLY SUBSTITUTE HOUSEHOLDS, NOT INDIVIDUALS.)
If yes:	Please tell this person that I will return for an interview at [insert convenient time]. If this respondent is not present when you call back, replace this household with the next household to the right.

If the selected respondent is not the same person that you first met, repeat Introduction:

Good day. My name is _____ . I am from Plus 94 Research and Afrobarometer, independent research organisations. I do not represent the government or any political party. We are studying the views of citizens in South Africa about how the country is governed and how the economy is managed. We would like to discuss these issues with you.

To ALL respondents:

Your answers will be confidential. They will be put together with 1800 other people we are talking to, to get an overall picture. It will be impossible to pick you out from what you say, so please feel free to tell us what you think. This interview will take about 45 minutes. There is no penalty for refusing to participate. Do you wish to proceed? [Proceed with interview only if answer is positive.]

[If respondent agrees to proceed, add:] We can do this interview in English, Afrikaans, Xhosa, Pedi, Sotho, Tswana, Venda or Zulu. Please, tell me which language you would like to use. [If interviewer does not speak selected language, then make an appointment for later in the day with a member of the team who speaks that language.]

Note: The person must give his or her informed consent by answering positively. If participation is refused, walk away from the household and record this in the above table on "Reasons for Unsuccessful Calls." Substitute the household using an interval of 2 (in small EAs), interval of 5 (in medium EAs) or interval of 10 (in big EAs). If consent is secured, proceed with the interview after recording number of calls and current date and time.
