Afrobarometer is a pan-African, nonpartisan survey research network that has provided reliable data since 1999 on African experiences and evaluations of democracy, governance, and quality of life. National partners conduct face-to-face interviews in the language of the respondent's choice with nationally representative samples. In Uganda, Hatchile Consult interviewed 1,200 adult citizens in September-October 2019. The sample yields country-level results with a margin of error of +/-3 percentage points at a 95% confidence level.

Colored circles ("stoplights") generally illustrate changes between the Afrobarometer Round 6 survey in 2015 and Round 8 survey in 2019 in Uganda. For climate action (SDG 13) and bribes for public services (SDG 16), comparisons are between Round 7 (2017) and Round 8 (2019).

- Performance worsened by >3 percentage points
- Change between -3 and +3 percentage points (not statistically significant)
- Performance improved by >3 percentage points
- Meeting this target
- Half-filled circles indicate that results are mixed when there is more than one indicator.
