Household Selection Procedure

Interviewer: It is your job to select a random (this means any) household. A household is a group of people who presently eat together from the same pot.

Start your walk pattern from the start point that has been randomly chosen by your Field Supervisor. Team members must walk in opposite directions to each other. If A walks towards the sun, B must walk away from the sun; C and D must walk at right angles to A and B.

Use the day code to determine the sampling interval. For example, on the 5th, 14th and 23rd of the month, the day code (and sampling interval) is five. So you choose the fifth dwelling structure on the right. On the 6th, 15th and 24th of the month, the sampling interval is six. So you choose the sixth dwelling structure on the right. And so on.

Interviewer: If a call is unsuccessful, use the table below to record your progress until you make a successful call. Circle a code number for unsuccessful calls only.

Reasons for Unsuccessful Calls	Household	Household	Household	Household	Household	Household	Household
	1	2	3	4	5	6	7
Refused to be interviewed	001	001	001	001	001	001	001

Not Applicable	997	997	997	997	997	997	997

If no-one is at home (i.e. premises empty), substitute with the very **next** household to the right. If the interview is refused, use the day code to select a substitute household (i.e. after a sampling **interval**).

When you find a household with someone home, please introduce yourself using the following script. You must learn this introduction so that you can say it exactly as it is written below.

Good day. My name is _____. I am from **Citizen Surveys**, an independent research organization. I do not represent the government or any political party. We are studying the views of citizens in South Africa about how the country is governed and how the economy is managed. We would like to discuss these issues with a member of your household.

Every person in the country has an equal chance of being included in this study. All information will be kept confidential. Your household has been chosen by chance. We would like to choose an adult from your household. Would you help us pick one?

Note: The person must give his or her informed consent by answering positively. If participation is refused, walk away from the household. Use the day code to substitute the household. If consent is secured, proceed as follows:

***Respondent Selection Procedure**

Interviewer: **Within** the household, it is your job to select a random (this means any) individual. This individual becomes the interview respondent. In addition, you are responsible for alternating interviews between men and women. Circle the correct code number below.

	First Interview	Male	Female
Previous interview was with a:	0	1	2
This interview must be with a:		1	2

Please tell me the names of all males/females [select correct gender] who presently live in this household. I only want the names of males/females [select correct gender] who are citizens of South Africa and who are 18 years and older.

If this interview must be with a female, list only women's names. If this interview is with a male, list only men's names. List all eligible household members of this gender who are 18 years or older, even those not presently at home but who will return to the house at any time that day. Include only citizens of South Africa.

Take out your deck of numbered cards. Present them face-down so that the numbers cannot be seen. Ask the person who is selecting respondents to pick any card, by saying:

Please choose a card. The person who corresponds to the number chosen will be the person interviewed.

[Interviewer: **REMEMBER to circle the code number of the person selected** on the table above]

The person I need to speak to is [insert name] _____. Is this person presently at home?

If yes: **May I please interview this person now?**

If no: **Will this person return here at any time today?**

If no: **Thank you very much. I will select another household.** Substitute with the next household to the right and repeat the respondent selection procedure. (NOTE: YOU CAN ONLY SUBSTITUTE HOUSEHOLDS NOT INDIVIDUALS.)

If yes: **Please tell this person that I will return for an interview at [insert convenient time].** If this respondent is not present when you call back, replace this household with the next household to the right.

If the selected respondent is not the same person that you first met, repeat Introduction:

Good day. My name is _____. I am from **CITIZEN SURVEYS**, an independent research organization. I do not represent the government or any political party. We are studying the views of citizens in South Africa about how the country is governed and how the economy is managed. We would like to discuss these issues with a member of your household.

To ALL respondents:

Your answers will be confidential. They will be put together with 2 400 other people we are talking to, to get an overall picture. It will be impossible to pick you out from what you say, so please feel free to tell us what you think. This interview will take about 45 minutes. There is no penalty for refusing to participate. Do you wish to proceed? [Proceed with interview only if answer is positive].

How many calls were made to the household where the interview actually took place?			Circle code number
