Household Selection Procedure

Interviewer: It is your job to select a random (this means any) household. A household is a group of people who currently eat together from the same pot.

Start your walk pattern from the start point that has been randomly chosen by your Field Supervisor. Team members must walk in opposite directions to each other. If A walks toward the sun, B must walk away from the sun; C and D must walk at right angles to A and B.

Use a 5 / 10 interval pattern to select a household. That is, walking in your designated direction away from the start point, select the 5th household for the first interview, counting houses on both the right and the left (and starting with those on the right if they are opposite each other).

Once you leave your first interview, continue on in the same direction, this time selecting the 10th household, again counting houses on both the right and the left. If the settlement comes to an end and there are no more houses, turn at right angles to the right and keep walking, continuing to count until finding the 10th dwelling.

Interviewer: If a call is unsuccessful, use the table below to record your progress until you make a successful call. Circle a code number for unsuccessful calls only.

*If no one is at home (i.e. premises empty) after two visits, substitute with the very **next** household. If the interview is refused, use an interval of 10 to select a substitute household, counting houses on both the right and the left.*
When you find a household with someone home, please introduce yourself using the following script in the most common language spoken in the area. If the household member does not speak the most common language, establish if they speak another interview language. Make an appointment and arrange with another enumerator who speaks the household language to come and continue with the interview if it is possible to do so.

You must learn this introduction so that you can say it exactly as it is written below.

Good day. My name is _____. I am from the GROUPE CIBLE and Afrobarometer, independent research organizations. I do not represent the government or any political party. 98. In the near future, Afrobarometer might conduct short follow-up surveys by phone with the people we have interviewed. These interviews will usually only take about 15 minutes. We will keep your contactable phone number confidential if you are willing to share it with me. There is no penalty for saying no. Would you be willing to participate in these surveys? *[If yes:]* **Please tell me the number or numbers where you can be reached.** *[Indicate that this can be their personal number or a number of someone close to them where they can be reached.]*

99. Finally, we would like to give you a chance to express your thoughts in your own words. You don't have to say anything. If you do, we might share your comment in the media so that it reaches the government, but we would only share it anonymously, not with your name. If you could say one thing or send one message to your government, what would you say? *[Interviewer: You will need to translate the response into the national language, English orFrench on the spot, but please try to capture the respondent's answer **in their exact words** as closely as possible. Do not summarize. If the respondent says "My kids haven't known the taste of meat in 6 months," do NOT write "Food insecurity" or "My kids are hungry." Write "My kids haven't known the taste of meat in 6 months." If the respondent gives a long answer, capture only the first sentence or the most interesting statement that the respondent makes. If the respondent has nothing to say, select code 0=No answer]/*
